PROFILE

Full Stack Web Developer building the connective tissue between a good idea and a useful product. Comfortable across the stack — from responsive, thoughtful interfaces to the backend logic and data structures that support them. Growing my practice one honest build at a time: learning the fundamentals, making things, then making them clearer. Looking to contribute to teams and client work where craft, curiosity, and a bias toward useful outcomes are valued.

SKILLS

Frontend	HTML, CSS, JavaScript, Bootstrap, React
Backend	Node.js, Express.js, Python, Django
Data	MySQL, SQL, Schema Design, MongoDB
Workflow	Git, GitHub, VS Code, REST APIs

PROJECTS

Shopinza

Commerce / Full Stack — HTML, CSS, JavaScript, Node.js / Express, MySQL

A modern e-commerce platform concept bringing product discovery, cart management, and a clear purchase journey into one cohesive, responsive interface.

- Built product discovery and category browsing with a calm, purposeful content hierarchy.
- Implemented cart and checkout flow foundations with a backend-ready data model.
- Designed responsive product detail views and a database-ready inventory structure.

Zovari

Community / Full Stack — HTML, CSS, JavaScript, Node.js / Express, MySQL

A social media platform concept designed to make publishing and conversation feel lightweight, human, and easy to follow.

- Built a modular, structured feed with post composition and conversation-first interaction patterns.
- Developed profile and social graph foundations on a MySQL-backed content model.
- Designed for many content states while keeping the main feed visually legible.

Cleaning Website

Business / Frontend — HTML, CSS — github.com/tariq9012/Cleaning-Website

A fully responsive, static marketing site for a professional cleaning services business, built to turn visitors into booked customers.

- Built service showcase, team/expert profile, and customer feedback sections from hand-written HTML and CSS.
- Delivered a fully responsive layout with no framework overhead, keeping the site fast and simple to host.
